

STANDLAKE RANCH RETREAT

2002 News letter

LATVIA OUTREACH

Our second invitation to Latvia to run a Christian Instructors Clinic at Cancauskas.

It was the second day. How to hear God on a nature walk. They sat down and shared what they had heard, except for those not yet Christians "how can we hear the Lord they asked? By becoming a Christian I replied. Ten of them became Christians there and then. One of them Christine Nettle asked me to pray for her sick son Adrian unable to sleep and lame every morning. I prayed for him!

The following week as speaker for Christian Camping International, Christine Nettle had brought her whole family to become Christians as the Lord had healed her son Adrian in photo left.

Two weekend's I was invited to speak at a church Valmiera. The first week 30 people were healed. The second week they invited the village and orphanage, so I prayed 1 hour before the service and one hour after the service, Jesus healed most of them. We then drove to a new church plant only 4 weeks old with 30 new Christians, after the talk I prayed for the sick.

The first was a lady with sore legs, she could no longer stand up if she sat down, after the prayer she sat down and could stand up without even holding on. She was radiant with joy that the Lord had healed her, and told everyone. The second was a 12 year old girl, the Lord gave her back her eyesight, she also told everyone.

Everyone got healed that service, and as we were about to close an 18 year old girl whom I had prayed for that morning for a deformed jaw from birth came running up shouting "look at my jaw" "look at my teeth" Jesus had perfectly healed her during the day. How beautiful she looked with a straight jaw.
