Suzanne came with a programme which was very varied in reaching different peoples and the Lord was able to do tremendous work in the different strata of society to which she ministered.

The first night was in a Xhosa congregation of the Anglican church. Though there was a little confusion, she was able to release God's power to about 60 people in healing. The next night everyone was healed plus there were testimonies from the previous night.

In the morning Suzanne had a recorded interview with the programme manager of Radio Kingfisher, which will come on air next Friday. She was also asked by Pastor Oswell to pray for his back and he was healed.

That afternoon she had an appointment with the Bishop of the Diocese who was also laboring in sickness. He was healed. The following night there was a revival meeting in the town of Uitenhage where again the Lord beautifully healed each person. Over 30 came forward and each one testified of the healing they received. Seven people received the gift of the Holy Spirit. That afternoon she was asked by the director of Africa Enterprise to pray for 2 children in hospital, which she did. Since then the pastor has informed me that the 2 year old child's burns have decreased considerably and the parents were thankful. The other baby was discharged.

We returned to Uitenhage on Sunday morning and went straight into the word which Suzanne gave. This was so helpful for Christians to understand how to abide in Christ and how to receive His strength and direction. She then went into ministry and 3 ministers came forward for empowerment. They recognized the tremendous role Suzanne has for Africa. 17 people came forward for healings in body, mind and spirit and relationships and all testified to receiving healing of one kind or another. Only one would not affirm healing, but realized that God was calling her to a deeper level of commitment.

We then went to Bread of Life church of a different racial group called coloured and, at the conclusion of the main service, were able to minister to those in need. This was a tremendous time of healings. 2 deaf ears were opened, shingles decreased, eczema dried up and changed colour to normal in front of our eyes, on the child's legs and the mother's leg and a woman who had lost her voice for months found her voice returned to her as we prayed.

To all supporters of Suzanne - keep your prayers directed and for Suzanne's husband, Wilfrid and daughter, Rebecca. Thank you for letting Suzanne come to this country and continent like a torch bearer of Christ. We were tremendously touched, bodily and spiritually and know we need Suzanne back in this country.

Ever your brother in Christ, Allan Stansbury (retired Anglican minister, now involved in missionary work in the townships.)
