MALAWI AND MOZAMBIQUE OUTREACH

Dear friends,

The Lord has again moved in powerful and amazing ways

Migowi and light of Jesus Christ Ministries

3 day crusades. I get sick with diarrhoea. I am determined to preach. Feeling weak sick and dizzy I speak what comes into my mouth. I then sit down and pray for the sick in one general prayer. Every single person is healed in two minuets. I then discover there are twelve pastors behind me. I cant remember what I said. Playing the tape I discovered it was the perfect message for pastors. Next day I ask the Lord why He had not healed me with the others. The Lord replies "To make you rely on me completely. My child do not limit me, let me be God" "How have I limited you Lord" I ask. He takes me to 1 Kings 18: 33 - 39 and says "If Elijah had not soaked the sacrifice with water and filled the trench with water, he would have limited my miracle" "Oh!!

The next five day crusade is the "Light of Jesus Christ crusade" At the first session only 25 people come, Don't limit God, how? I think? I then say " Bring the sickest person in the village here tonight and invite the whole village to come and watch the Lord heal this person" That night the church is crammed full, the people have brought the sickest person, seriously sick for two years, shivering under the blanket, I pray for her and the Lord heals her, within minuets she is running down the isle healed. Jesus had showed Himself Lord to all. For the next days, many people came, group after group to receive healing and Jesus into their hearts, including two chiefs and Judith and Maria, both were born deaf and dumb, both were healed, they are now learning to speak. LET GOD BE GOD and HE SHOWS HIMSELF AS GOD.

Radio and TV Miracle

Tuesday was not booked, so I asked the Lord what He wanted me to do "He said" Go to the radio station, then to the TV studio, then buy five megaphones and bicycles for the bicycle ministry" So we went to the radio station. Perfect timing to give half an hour gospel message with prayer for salvation and also prayer for the sick, the ten devotions on the Lord's prayer for after the morning news headlines. We then went to the TV studio. Again the doors opened, not for an inter view, but to come to the Samuti Crusade to film the whole crusade healings and prayer for salvation and for the sick to be shown on national TV at no cost. We then bought five megaphones and bicycles at a discount price. A wonderful day.

Mozambique

We could not get in, no visa and too expensive to get the hired lorry across. After an hour I ask "what about going by bicycle" No visa or passport needed, only a permit, so we hire seventeen bicycle riders. We sit on the carriers behind the seat while the drivers peddled away with us to visit the first church twenty kilometre's away. We then rode on for nine kilometre's, in a rainstorm to the second church and then 20 kilometre's back to the border by 6pm, we then had to walk one and a half hours back to lodgings in the dark. It was an amazing and fun day with many conversions and healing's at both churches, including riding through the beautiful foothills of the Maluzi mountains.
