

## AFRICA BREAKTHROUGHS 2003

### Migowi Malawi 2000 respond

December 2002. A devastating drought in Malawi. Eurovision ask me if I would go. Duncan Nyozani is a believer but no one will believe him. I respond and go.

The Lord heals the people. They respond and pray for rain. God answers their prayer for rain within one hour. As a result the whole village become Christians.

The Lord then supplies food for them through donations from Cote Baptist Church in Aston UK and Grove Fellowship, feeding every family right up to harvest time. They had £200 left over, Duncan asks if he may buy land to build a church with the remaining £200. We say yes.

In April the whole Community bake bricks in the sun and start building a large church, library and prayer room. At this moment all they need is to buy wood and tin to put on the roof. Cote Baptist is already responding to this need.

This opened the way to more crusades in April. Here I saw some wonderful miracles which included three children getting out of wheel chairs & walking after four to seven years being crippled and lame.

Mwawia paralysed & blind for 5 years from Malaria, gets out of wheelchair and Walks in Jesus name.

"Will my legs really support me?" David asks, "without holding on?" He then runs.

Jennifer, her first attempt at Standing after seven years in a wheelchair.

## Bala Orphanage Kenya

Two new buildings, gas cooker, two new water tanks to collect fresh rain water and School uniforms are some of the improvements that the orphanage has seen.

The children look happy and all of them know the Father love of God and trust Him completely, these children appreciate every little thing .

We now have thirty eight sponsors who sponsor a child with £5 or £10 per month. We thank all of you who sponsor one of these children Their lives have changed because of you.

## Squatter Camp Church double in size in South Africa

Due to the church growing so fast, Living Stones Church of Cumnor donated enough funds to double the size of their church. These people are so very grateful.

The leadership are planting new churches in other townships causing crime to come down as a result.
