

FIRE OVER MALAWI CRUSADE

Malawi!?!= Incredible move of God. Pastor Duncan, the only believer, has no training, only one bible for the whole community. He gets hold of a Eurovision Prophetic magazine. He believes the healings, but the community wont believe, so he writes to Eurovision to ask me to come. I come to a desperate situation of severe drought, searing heat, sickness and unbelief. 3 people already dead. They are living on cut stalks', and leaves cooked in soot to soften them. I call out to God! only He can help!

4 people come so full of pain they cant make it to market. Jesus heals all 4. They leave rejoicing, all pain gone. The word goes out! an alcoholic comes and gets healed! more and more come. 8 more get healed. 61 become Christians! they then follow me around the rugby field 7 times singing, to break the strongholds of unbelief, as round the walls of Jerico.

Next morning 6.30am people have heard about the healings and come to get healed, 'Jesus heals them. 9am many people come, they cant wait for the crusade to start. 78 people become Christians, another 28 get healed including the chief. 'Duncan forget hiring the generator, here buy some food for yourself and these people.' There is great rejoicing at the healings, the food brings even more rejoicing.

2pm the crusade begins at the rugby field, many people come, more and more. I speak on believing God. 'Has anyone thought of praying for rain'. I ask! no one had. Over 400 rush forward to become Christians. After the sinners prayer they all start praying, I am told they are now praying for rain. They go and sit down.

I then call for the sick to come forward. 300 come forward, how do I pray for them! I ask the Lord. 'Put your hands on the sick area.' I pray one general prayer for healing, over 40 testify of instant healings, then the very sick come forward, they are all receiving healing and testify. The people go crazy with excitement, " Jesus is passing by" they shout.

Its growing dark! the sun is blotted out by cloud. There in front of me is a man with leprosy on crutches, I start to pray, but it begins to rain! The meeting has to stop. God has answered the prayer for rain within the hour. The people rush home before the downpour, it rains hard! I tell the sick to come back tomorrow.

Next day everyone is planting seeds, only the sick come for prayer! the leper Bonongwe Benedicto is there first, Jesus takes all his pain away! he can now walk without crutches, a further 27 get healed. We feed them again and let them feast with a goat as well, for Jesus is here among us. A further 12 become Christians.

Next day Friday, we have word from the chief! he said he had never seen anything like Wednesdays crusade, the demonstration of the power of Jesus. Jesus healing the sick and sending rain when the people prayed for it. He is very very happy and so is the whole community.

By this time I have learnt to pray for the people in sections. "All those with sore heads come forward! 14 came forward, then 15 stomachs, 10 with arthritis, 5 with sore feet, 4 blind etc, a further 75 get healed. I teach on the Holy Spirit and everyone gets baptised in the Holy Spirit. By Saturday there are only a few left to get healed or become Christians, almost the entire community are now believing Christians and Jesus has done it.

Altogether 442 prayed for with 217 people testifying of healing including Aliane White who's symptoms from HIV Aids has completely disappeared for 5 days now. Altogether 554 people have become Christians.

The people say they will never forget the day they prayed for rain and God answered their prayer in front of their eyes, they now know God is alive and loves them, they are amazed and I am amazed with them! What a mighty God we serve.

I asked Duncan how did he get hold of a prophetic magazine in such a remote area, a friend had shared one with him. It changed his life, and now the life of the whole community, they now know Jesus Christ as their personal Lord and saviour, they are now healed, they are now blessed with rain ending famine — all within one week.

To see the Lord answer prayer like this, its awesome, I see God bigger than ever before, not just loving but also Holy, Awesome and Life changing. I am only discovering the Lord now with these people. Our God who answers prayer as we ask. Thank you! thank you Jesus! our Jesus who is alive! right now! here amongst us.

Suzanne Pillans.
