Dear Friends,

The Lord is doing it. December 2003 had wonderful crusades in South Africa where many responded to Christ and many others were healed. The lame walked the deaf and dumb could hear and speak, and the blind could see. Sometimes the Holy Spirit came down in such power that people fell to the ground, demons came out and people were healed right where they were. We simply watched the Lord do it.

In January we went to Ghana. Here the people responded wonderfully rising up to a new level of walking in Christ, that of walking in **victory**, in his wisdom, power and authority. Even the local queen who came to hear our message responded likewise, gave a large donation to the church and organised we speak the same message on radio.

My entry was refused into Nigeria due to having the wrong visa. I lacked money to set this right and returned home in defeat. I cried out to the Lord for many days as to why He allowed this to happen, I had let people who are desperate for the gospel down. The pastors even cried that I could not come to them. I also had good TV coverage of some of my talks. but no £400 to pay for the TV time of two hours to show the crusades on national TV throughout Ghana. It is impossible to do all this alone' I felt the Lord say, 'what do I do' I asked? 'Tell my people what you are doing and they shall help you' So I sent a newsletter to 15 churches and the people responded, covering all costs of the Kenya and Uganda crusades in April, and also covering the TV broadcast of the Ghana crusade. A person watching this broadcast in the pastors home got out of her wheelchair and walked. The broadcast will be showing soon on national TV throughout Ghana. We thank the Lord and every person who gave towards the April crusades.

As a result of my refusal of entry into Nigeria, the pastors were so determined that I come, that they have now invited me in July to speak at massive crusades numbering 20,000 in three crusades, and to then reach millions through national TV. There are 120 million that live in Nigeria. This is mass evangelism. The cost of the TV broadcast of two hours is £950 pounds and for filming and editing £87 pounds. Together we can be this effective for Jesus.

Other costs will be advertising, hire of stadiums and loudspeaker equipment. A crusade normally costs £1,000 which is much cheaper than most countries. Please pray with me that the Lord will cover these needs for Nigeria. We have to start planning now as I will be away overseas until June 7th.

This is our first newsletter to a wider number of people, please let us know if you do not want to receive newsletters or if you would like to order books or audio tapes. Video tapes will also be ready to send out by the end of June.

We thank you as you stand as partners with us in all the Lord is doing. Please carry on praying for these crusades. The Itinerary is enclosed.

Thanking you.
In His service

Suzanne, Wilfrid & Rebecca.
