

# Orphanage Support

## Bala Mercy Orphanage Kenya

Simeon receiving gifts from his sponsor in England  
In their newly built classroom

The improvements in one year are a lot, with two new buildings, four large fresh water tanks, a gas stove, school uniforms, and some basic medical care.

We also have 32 sponsors who give £10 per month = £320 per month. We desperately need a further 18 sponsors to bring the basic balance to £500 per month to feed the children and pay the teachers. Please help if you can.

The floods have also caused loss of homes and crops, so many have sought refuge in the only permanent building in the area, the orphanage for food and shelter. At present the needs are desperate because of the floods.

If any can help, sponsor an orphan or help the flood victims, please make out a cheque to the "Bala Orphanage."

## Miracles in Malawi how it started

Pastor Duncan the only believer, gets hold of a Eurovision prophetic magazine, sees what happened in Fire over Kenya Conference. Duncan writes to Eurovision to send someone. They send me.

I arrive in December to a desperate situation of severe drought, three people already dead, I call out to God, only He can help. How will He reach 2000 people in four days? But God always has a plan. Next morning four people arrive at 6.30. am in so much pain they cant make it to the market. **Jesus heals all four.** They leave rejoicing to the market and the word goes out. By 9.30. am the church is full. By the evening people testify healings and 61 become Christians.

Next morning another 78 become Christians and 28 healed. The 2pm Crusade starts. Many people come. I speak on believing God, "Has anyone thought of praying for rain" I ask? No one had. Over 400 become Christians, they then pray for rain and go and sit down.

I then call the sick forward, about 300 rush forward. How do I pray for so many. "The Lord says He is going to heal you where you are.' Put your hand on the sick area or pain and receive your healing now in **Jesus name.**" Squeals all over, many are healed, 40 rush forward to testify. They get very excited **Jesus is passing by'** they shout.

Now the very sick come forward. They get healed and testify. The next is a leper, but it's growing dark and the wind is blowing and suddenly it begins to rain. God has answered their prayer for rain within the hour, as a result the whole community become Christians.

Not only that, the Lord supplied £2,500 to feed the 2000 People until their harvest at the end of March 2003. Now other villages also want to hear the gospel. I am invited back to Africa in April 2003 and I go. I see even more of the move of God as I witness the lame get out of wheelchairs and walk. I felt God's love and joy for them, I felt as if I had shared in His joy of seeing His children healed and set free.
