Work is going on very well. The good news of Jesus Christ is spreading like bush fire in Mozambique. Our May journey has brought fruit, I have just got a message from the phone that they have opened two more centres in Mlombala district as a result of our May crusades which you sponsored.

Let God Almighty' use you mightily in this year. God will send you to Malawi again. Write to me, so that I can make arrangements in Mozambique so that you could see for yourself what is happening in Mozambique.

in Mozambique. I need your help again because people want me to go and visit them there, I want to see revival this year, so if it pleases the Holy Ghost find me donors or sponsors for the lost souls of Mozambique. The money you sent me has produced fruit in Mulombala. Let us work harder than last year. I am prepared to suffer for Jesus Christ who redeemed me from death. So I need this help very urgently, so that I don't disappoint those people. I always depend upon God to give me the requirements for the work done. God has given you as my break through for Jesus Christ.

Yours always in His service.

How the bicycle ministry began

While in Uganda 22 - 25 April 04 God spoke to me about reaching the unreached villages of Africa which have never heard the gospel, simply because there are no roads to them, no electricity, TV sets or even radios. "That's impossible" I replied "It would take two lifetimes to even reach one country." "I will show you" the Lord replied.

Within a week the Lord raised up 20 evangelists in Uganda and 30 in Kenya. There was only one problem; how could they get there? If only they had a bicycle, a megaphone and bibles.

So I came back to England and within six weeks the first bicycles, megaphones and bibles were in their hands. From this 34 churches were soon planted and the bicycle ministry has spread to Malawi and Ghana.

This simple ministry then spread country wide through Eurovision giving us the African list of pastors who receive Prophetic Vision magazines

Our main pastors then networked all these pastors together within their regions of the country and are starting bicycle ministries.

in each region, right now in Kenya 200 villages and in Ghana a 100 villages are being reached in the month of December 2005.

Due to the number of evangelists being raised up in this ministry, we are also starting a Bible School designed to train pastors and evangelists in the very rural areas of Africa and the Far East which will be Christ Centred, Holy Spirit empowered and not too theological. This will be done by correspondence, through a network of already trained pastors.

Right now we are needing a further 85 bicycles, megaphones and bibles to keep abreast of this fast growing ministry to the unreached forgotten peoples.

This is God's vision and His doing. If we can acquire these bicycles, over a thousand villages can be reached in 2006.

A bicycle costs £40 and a megaphone £25 and bibles £2 each. £69 will then equip one evangelist with a bicycle, megaphone and 2 bibles. Up to now, the average results for one evangelist, is to plant up to three churches a year. Where else can we plant a church for £69.?

NEW BIBLE SCHOOL to train Evangelists

In a vision sometime ago, Jesus pointed me to the Father and I took a step toward Him and found myself in a white mist.

I could see nothing or hear nothing but what I felt I will never forget. A drop of the Father's heart for the nations of the world. The pain, the love, the sorrow was so great, I burst into tears, 'I'm sorry', I repeated over and over, what else could I do? I realised then that half the world doesn't even know who created them and many who do, prefer their own chosen life styles, than to turn to Jesus.

Suddenly I realised that there was something I could do about it and prayed "Father God I promise you, I will give you every day for the rest of my life to reach as many lost as I can and to wake up your churches to do the same". I know the Father has accepted my promise.

It is this that has pushed me out to preach to the nations, to start the bicycle ministry. Now God is raising up many evangelists for the bicycle ministry and they need training.

While in the Philippines, Bishop Blanco who has been collecting Bible School notes for 30 years, looks across the table at me and says. "The Lord says these bible notes are for you. He wants you to open an International Bible School to train evangelists to reach the lost".

Me? I close my eyes and suddenly see all is in place to receive this Bible School" GOD HAS DONE IT AGAIN. This correspondence Bible School opens this month and notes are being sent to our pastors in each country, ready and waiting to teach hundreds of evangelists.
