

What can God do with a bar of soap?

When Scott and Angela Lillie visited Uganda in March this year they asked the Lord about what they should bring to the orphans and widows, knowing that the needs were great and suitcase space was limited. They were prompted to prepare packages of soap, flannels, toothbrushes and other daily necessities. During this time the Lord also prompted other supporters of the ministry to bring soap, flannels and toothbrushes for Uganda (thank you amazing friends and partners) and as a result they had more than what could be squeezed into the cases!

They were able to deliver the packages personally to the homes of those most in need. Amongst the homes they visited was a widow, Kemigisa Jacklyn and her children in Kibaale. She received the packages of soap and other items with tears and great joy. Three months later Jacklyn visited the head teacher of the Kibaale school and showed her feet to her - she had suffered with leprosy for many years,

but after receiving the soap, she had faith to believe that God would heal her if she washed her feet each day with the soap.

The soles of her feet were completely clean of leprosy, God had healed her feet. What rejoicing there was - A MIRACLE HAD TAKEN PLACE.

It reminded me of the mud Jesus placed on the eyes of the blind man, the mud could not heal the man's blindness, just as we know in the natural realm soap cannot heal leprosy. But a bar of soap mixed with an act of faith, and a belief that Jacklyn had in God that He would heal her through the soap, and God brought heaven down to earth exploding in a divine healing.

Each time we act in faith to what God is saying to us there is the potential of a divine miracle. Praise God.

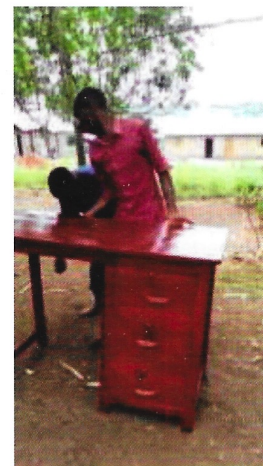

What an encouragement this story is to us as individuals to increase our faith and belief in a mighty God who is still working miracles today.

Unity at Kasana School

A great victory has taken place at our Kasana School. Christopher has been there for three weeks during July overseeing all the building projects that needed to be done. The workers were often working until 7pm at night to get all the work completed.

Two of the leadership staff at the school did not have a good relationship and were in friction with each other. This was a great concern to me.

Christopher encouraged them to be a part of the building work and over the three weeks many things came out into the open and healing took place. By the end of the three weeks there was forgiveness and friendship between these 2 staff members. What a joy for Christopher that not only was he able to complete all the work but unity had been restored which in turn will affect positively the whole school.
