Step Out In Faith

Company Number 11820396

FIRST HALF OF 2022 NEWSLETTER, IMPORTANT NEWS FIRST Wilfred suffered a heart attack on the 20th of December 2021 and was rushed to hospital where he was given three stents on the 24th of December, to return home on Christmas Day. Since then he is making a slow but sure recovery. Due to this and that I am 70 years old this year, we have decided to rent out Standlake Ranch to Oxford Baptist Church and take a nice long sabbatical to Port Elizabeth in South Africa to return on the 18th January 2023.

The ministry will continue as normal, as most of it is done through the internet, as well as upgrading to YouTube programs and encouraging the people in Port Elizabeth where there is a vast opportunity in ministry.

Pauline Clack's address is 67 Quarry Road, Witney, OX28 1JT. Her telephone number is 01993 200936 and will continue as secretary from her home in Witney to free up our home to be rented out while we are away.

SIERRA LEONE. Pastor Bobor has brought a 25-acre farm and is planting over 2000 Palm Oil trees to further help the people in his churches.

We had 339 people who through listening the "Farming Gods Way" radio broadcasts have established successful farms which provide for their families, plus income from selling excess vegetables. Pastor Tejah is now feeding 69 people in his church from his farm.

INTERCESSORY PRAYER Through the radio broadcasts we have also raised up 1000 intercessors who have dedicated 10% of their time for intercessory prayer. We have just completed two weeks of intercessory radio broadcasts twice a day to pray for the current world situations. It has proved so successful that we will be carry on doing this over the radio broadcast 8.00.a.m. UK time every Wednesday to keep up the momentum.

NIGERIA, Pastor Oladipo downloads our Wilderness Life Talks from our YouTube Channel and sends them on computer sticks to the many house churches he has planted, as well as his Bible Schools. The people are very encouraged by them.

GHANA. Pastor David Botchway has completed his cottages on his land and is renting them out to further raise funds for his growing ministry of Bible Schools and church plants throughout Ghana, Togo, and Benin.

THAILAND. We have a prayer meeting every Friday with the team, they are really making good strides in pioneering more evangelism and planting a Bible School.

PAKISTAN. We do telephone crusades two to three times every month with wonderful results in salvations and healing. In April people began bringing the sick for the Christian God to heal them. A mom brought a sick baby whom the local hospital was unable to help. The baby was instantly healed. A man was carried in on a stretcher and was also instantly healed. The Lord also healed a girl from Polio so that she could then walk.

New Water Well in Levuma Village In Sierra Leone. This is the first water well the people have ever had and they are also so excited with the new Church and School for the children. Thank you for making this possible.

Pastor Tejah has listened to our Farming God's Way radio broadcasts for the last three years. As a result, he is now feeding 69 people in his church year-round from his home grown vegetables and crops.

Another Step Out in Faith Church Plant in the Volta Region of Ghana, under a Mango tree. This is one of the many Church plants that David Botchway has managed to plant last year.

David says thank you to all our supporters who have supported this work so faithfully through many years.
